

PROFILE

UI/UX developer and design engineer with 7+ years of experience designing and building responsive, accessible, user-centered web applications. Currently the UI/UX developer at Ask Sage (a BigBear.ai company), designing and engineering the interface for a secure generative-AI platform used by government and enterprise teams. Expert in React, Next.js, TypeScript, and Figma, with a track record of leading UI/UX departments, building design systems, and shipping production interfaces end to end. U.S. Army National Guard veteran with an active DoD security clearance.

EXPERIENCE

UI/UX Developer · Frontend Engineer · Ask Sage (a BigBear.ai company) Dec 2024 - Present · Remote

- Own UI/UX end to end for core product surfaces, from research and Figma prototypes to production React/TypeScript.
- Design conversational AI patterns (streaming responses, citations, file and dataset context, agent and plugin workflows) that make powerful models feel approachable.
- Build and maintain a token-driven component library and design system that keeps product, design, and engineering aligned.
- Ship to WCAG 2.2 AA and Section 508 standards for public-sector users, with keyboard-first flows and screen-reader QA.
- Partner with engineering, product, and leadership through rapid release cycles, turning feedback and usage data into interface improvements.

Lead UI/UX Designer & Software Developer · ERA Solutions Feb 2022 - Dec 2024 · Remote

- Led the UI/UX department, owning the design process from concept to launch across a portfolio of client products.
- Designed in Figma and built production interfaces with React and Next.js for veteran career, credentialing, and nonprofit platforms.
- Managed delivery end to end with Jira and Monday.com, from design through implementation and release.
- Wrote and taught course material on HTML, CSS, JavaScript, React, and MySQL, and mentored apprentices in modern frontend practice.
- Contributed to RESTful API and domain-driven design work in an Agile team.

Military Police (31B) · Army National Guard Jul 2019 - Jul 2025 · Texas

- Completed Basic Training and AIT at Fort Leonard Wood, Missouri.
- Trained in emergency response and law-enforcement operations to Army standards.
